

BioLineRx Ltd. to Host Investor Breakfast Meeting December 5, 2017 in New York

November 16, 2017 12:00 PM IST

TEL AVIV, Israel, November 16, 2017 /PRNewswire/ --

BioLineRx Ltd. (NASDAQ:BLRX) (TASE:BLRX.TA), a clinical-stage biopharmaceutical company focused on oncology and immunology, announced today that it will host an investor breakfast meeting on Tuesday, December 5, 2017 at the Convene Conference Center near Grand Central in New York, NY.

The agenda and topics for discussion include: (i) a keynote presentation by Dr. John F. DiPersio, Chief, Division of Oncology at Washington University School of Medicine, on bone marrow transplantation and the role of CXCR4 in cancer; (ii) presentation on BL-8040 development plans in immunology combinations, as well as on the upcoming GENESIS Phase 3 study in stem cell mobilization for autologous bone-marrow transplantation in multiple myeloma patients; (iii) presentation of AGI-134, the Company's novel immuno-oncology project; and (iv) an overview of the Company's plans and expected milestones for 2018.

The investor meeting schedule is as follows:

- 8:30 am EST - Registration
- 9:00-10:30 am EST - Formal Presentations and Q&A

Location:

Convene Conference Center
101 Park Avenue near Grand Central
New York, NY
888-730-7307

BioLineRx Ltd. will also host a live audio webcast of the investor breakfast. To access the webcast, please go to the [breakfast event page](#) on BioLineRx's website. It is recommended that users register 15 minutes prior to the scheduled start time to ensure timely connection. An audio replay of the meeting will also be available for approximately three months following the meeting on the [breakfast event page](#).

Registration and Additional Information

Advanced registration is required for onsite attendance. To register, please contact Vivian Cervantes at vivian@pcgadvisory.com.

About BioLineRx

BioLineRx is a clinical-stage biopharmaceutical company focused on oncology and immunology. The Company in-licenses novel compounds, develops them through pre-clinical and/or clinical stages, and then partners with pharmaceutical companies for advanced clinical development and/or commercialization.

BioLineRx's leading therapeutic candidates are: BL-8040, a cancer therapy platform, which has successfully completed a Phase 2a study for relapsed/refractory AML, is in the midst of a Phase 2b study as an AML consolidation treatment and is expected to initiate a Phase 3 study in stem cell mobilization for autologous transplantation; and AGI-134, an immunotherapy treatment in development for multiple solid tumors, which is expected to initiate a first-in-man study in the first half of 2018. In addition, BioLineRx has a strategic collaboration with Novartis for the co-development of selected Israeli-sourced novel drug candidates; a collaboration agreement with MSD (known as Merck in the US and Canada), on the basis of which the Company has initiated a Phase 2a study in pancreatic cancer using the combination of BL-8040 and Merck's KEYTRUDA[®]; and a collaboration agreement with Genentech, a member of the Roche Group, to investigate the combination of BL-8040 and Genentech's atezolizumab in several Phase 1b/2 studies for multiple solid tumor indications and AML.
