

## BioLineRx to Present at 2017 BIO CEO & Investor Conference in New York on February 14

February 7, 2017

TEL AVIV, Israel, February 7, 2017 /PRNewswire/ --

BioLineRx Ltd. (NASDAQ/TASE: BLRX), a clinical-stage biopharmaceutical company focused on oncology and immunology, announced today that its Chief Executive Officer, Philip Serlin, and its Chief Business Officer, David Malek, will present a company update at the 2016 BIO CEO & Investor Conference on Tuesday, February 14, 2017 at 10:30 am EST. The conference will be held at the Waldorf Astoria Hotel in New York.

A live webcast of the presentation will be available on BioLineRx's [website](#). A replay will be available one hour after the presentation ends and will be accessible for three months following the presentation.

Investors or potential partners attending the conference who wish to meet with BioLineRx management should contact the BIO Partnering Team at [biopartnering@bio.org](mailto:biopartnering@bio.org).

### About BioLineRx

BioLineRx is a clinical-stage biopharmaceutical company dedicated to identifying, in-licensing and developing promising therapeutic candidates. The Company in-licenses novel compounds, primarily from academic institutions and biotech companies based in Israel, develops them through pre-clinical and/or clinical stages, and then partners with pharmaceutical companies for advanced clinical development and/or commercialization.

BioLineRx's leading therapeutic candidates are: BL-8040, a cancer therapy platform, which has successfully completed a Phase 2a study for relapsed/refractory AML and is in the midst of a Phase 2b study as an AML consolidation treatment and a Phase 2 study in stem cell mobilization for allogeneic transplantation; and BL-7010 for celiac disease and gluten sensitivity, which has successfully completed a Phase 1/2 study. In addition, BioLineRx has a strategic collaboration with Novartis for the co-development of selected Israeli-sourced novel drug candidates; a collaboration agreement with MSD (known as Merck in the US and Canada), on the basis of which the Company has initiated a Phase 2a study in pancreatic cancer using the combination of BL-8040 and Merck's KEYTRUDA®; and a collaboration agreement with Genentech, a member of the Roche Group, to investigate the combination of BL-8040 and Genentech's Atezolizumab in several Phase 1b studies for multiple solid tumor indications and AML.
